Powered label dispensers

LABELMATE label dispensers are a quick and easy way to **dispense individual labels**. They use a peel and present design, meaning that as the material passes through the dispenser the label is peeled away from the backing material and presented at the front of the unit where it waits to be picked up by the operator. With different models to choose from these label dispensers **can handle virtually any job** you may have for them.

Label unwinders

Label unwinders provide a convenient way to **manage your supply roll of labels** as it feeds into a printer. You can use larger rolls of labels to minimize your unit label cost. The supply roll of labels does not have to be refreshed as often, **saving time and adding convenience**. External label rolls are always visible, making it easy to monitor the status of your label supply.

LABELMATE unwinders, powered or non-powered, provide the most advanced unwinding solutions available. They are **recommended for demanding production applications**.
